

What In the World Are They Spraying?

CHEMTRAILS: A Global Public Health Menace

The implications of **Geoengineering** are frightening enough until you learn the military has already been spraying aluminum, barium and strontium toxins into the atmosphere since circa **1996** without your permission and without testing for toxic effects of long term deployment of hazardous aerosols on global human populations, water resources and ecosystems.

The nano-engineered aluminum particles, alone are associated with Alzheimer's disease and many acquired brain pathologies.

This documentary calls for nothing less than a **March on Washington** to demand an immediate stop of illegal deployment of toxic compounds on humans, aka **"CHEMTRAILS"**

FULL LENGTH VIDEO: 

00:00 Local News coverage of Chemtrails

01:00 [AAAS meeting in San Diego](#) where topic is Geoengineering is presented.

02:30 **Stewart Howe**, Journalist arrived specifically to cover geo-engineering issue at the AAAS conference.

05:50 **John Haldron**, Obama's head of Science and Technology.

07:27 Geo-Engineer, and Canadian citizen, **David Keith** reveals aluminum is far more effective than sulphur for purposes of cooling the planet. Coincidentally, the Welsbach seeding patent awarded to Hughes aircraft in 1991 calls for **Aluminum oxide** as the active compound.

08:15 "Geo-Engineering the Climate", by David Keith "Science, governance and uncertainty", Sept, 2009 THE ROYAL SOCIETY. QUOTE: "Geoengineering is not a moral hazard; it's more like free-riding on our Grandkids"

09:00 **Dane Wigington**, Solar expert asks Keith if there's any research to show consequences of how highly reactive metal like aluminum would not toxify soils and waters.

Wigington asks if there would be any human health effects if 10-20 tons of aluminum were dumped into the atmosphere. Keith provides an obscure answer, then, on follow-up, is forced to admit that NO STUDIES ON HUMAN HEALTH have been published or even designed.

Wigington: California Air Quality Research Board finds submicron particulates as harmful to human respiratory system. *Nanoparticulates unknown health effects.*

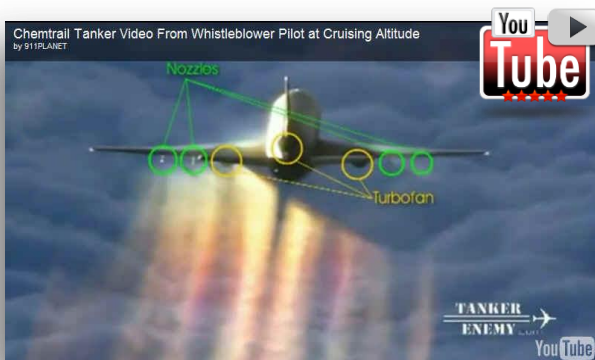

Keith: "We haven't done anything serious on aluminum and so there could be something terrible we'll find tomorrow. We haven't looked at it." Terms used by Keith in forum presentation: "aluminum vapor"

[Aluminofluoride complexes:](#) Aluminum toxicity is potentiated (made worse) by Fluoride - New phosphate analogues for laboratory investigations and potential danger for living organisms.

COMMENT: Stunning revelation that no Medical research on the Global aerosol effects of long-term aluminum "dust" sprayed on, and inhaled by human populations and the contamination of planetary water systems and ecosystems. Are we to conclude that our government, or the *New World government*, just does not care about the threat to human, animal and ecosystem destruction after nearly two decades of spraying ?

11:00 **Stewart Howe** suggests Geoengineering for Global Warming could be a pretext for different experiments like weaponizing the atmosphere and controlling populations through subversive propaganda and promoted as the Trojan Horse of "geoengineering".

12:00 **John Haldron:** "We have to keep geoengineering on the table" *"...because we might get desperate enough to want to use it".*

Video Captures Tanker in the Crime of "reverse" Geoengineering

Why would the Military use Geoengineering to increase the rate of Global Warming rather than decrease it? -- High quality air-to-air video shows a Boeing KC-10 Tanker in the crime of "geoengineering" at incorrect altitude - far beneath the stratosphere where the Welsbach seeding deployment using nano-engineered aluminum oxide (dust) is designed to be effective to cool the planet.

Scientist, Cliff Carnicom has [calculated that the consequences](#) of the past 14 years of low altitude deployment of Welsbach has likely [accelerated Global Warming](#). This is just the opposite of what would be needed to cool the planet.

12:30 **M. Granger Morgan** - Dept of engineering and Public policy - Carnegie Mellon U. "we do stuff in the stratosphere all the time" "it's not as if the stratosphere is pristine."..."you don't want people to go off and do things that require large irradiative forcing to go on for extended periods, or for that matter, provide large reactive surfaces that could cause significant OZONE destruction."

13:40 Murphy discusses the astounding Table of [Risk vs. benefits of Geoengineering](#) at one breakout session where the risks are off the chart of acceptability and sanity.

14:00 Lowe said it's clear they're developing a sales strategy for geoengineering.

14:30 Murphy wrote an article about his experience at the AAAS conference and posted it to Countercurrents.org entitled: ["What in the World are they Spraying?"](#) In one day his email box was loaded with responses. Mike decided to produce a documentary by the same name.

15:20 Corroboration and production assistance for the video came from G. Edward Griffin who discusses his thesis on geoengineering known as: "Stratospheric Aerosol Geoengineering" aka "Chemtrails"

18:18 **Ken Caldeira, Geoengineer** - Ability to steer Hurricanes would be to choose who would live or die.

21:00 KPFA Mauro Oliveira – www.Geoengineeringwatch.org

23:00 - **Dane Wigington** - Solar Expert - Solar Home on the [Magazine "Home Power"--](#) Mount Shasta tested 61,000 PPM for Aluminum. This is 61 times the EPA allowable maximum of 1,000 PPM

26:00 **Dr. Farcis Mangals**, USDA Biologist with high qualifications and Master gardener. Soil Survey of Siskiyou County, Ca. – Tiny arthropods decline in number. Soil Ph becomes alkaline and food chain will diminish from bottom-up. **Mahaia Sol**, Student used HEPA filter, Sterilized Mason jars to

29:00 Lined pond test positive for Aluminum and Barium (Wigington)

31:00 Lenny Thyme, PhD - Aluminum oxide "Shuts down life", "Forms plaque in your arteries", "Major neurological damage".

35:00 **Wigington** recalls "Agent Orange" and ["Owning the Weather in 2025"](#), a published USAF objective to use geoengineering as a military weapon against the enemy.

37:00 ARIZONA - Karen Johnson, Former State Center for Arizona discusses Chemtrails. People should wake up. *"Who is allowing and paying for Chemtrails"*. Incidence of Alzheimer's is "off the charts". Johnson also has questions about the government's version of the 9/11 event.

38:40 James Rota, Dentist - Dr. Anita Pepi, D.C. article: ["Aluminum poisoning"](#)... "Consequences of brain degeneration to skeletal deformities".

39:00 ["Heavy Metal Toxicity"](#) "Environment Illness Resource" publications.

40:00 Aluminum particles are an "accelerant" (like gasoline) to forest fires. Phoenix air analysis of 7/21/2009. Bar graph shows **39,000 PPM of Aluminum**. [A 2008 test revealed shocking levels of aluminum and heavy metals.](#)

41:30 LA TIMES article - 11/16/2006 - [Alzheimer's now a top killer in LA County](#). "Eighth leading cause of death in the region reflecting a national trend."

43:00 - **Deborah Whitman** - Trees are dying. Bark sample tests positive for Aluminum and titanium.

43:30 (SFGATE.com) ["Ancient Redwoods in Decline"](#)... "a large redwood tree growing near my home in Big Sur lost its top". Johnson points out trees in decline on her Arizona property with claims that over 40 trees have died.

45:30 HAWAII: Arrival to Organic Farm on remote side of Maui

45:40 **Jeanne Angelheart** - House is off the grid and supplied by Solar and/or generator -- Chemtrails sprayed offshore and drift in from West to East. Complaints that skies are constantly obscured. Can't see horizon or stars in the sky.

48:30 Unusual to see Palm trees are becoming soft and losing their bark. Chemtrails are threat to organic farming. Fears he will have to order GMO seeds modified for Aluminum soils because their own seeds won't continue to work.

49:45 CHART - Organic Farm resident on Maui had daughters hair tested. **Results came back >23.1 with maximum allowable of < 17.3 for Aluminum. The child has never received a vaccination.**

51:30 EARTH DAY 2010 on MAUI - Jeff Farias Show

52:00 Mariel Hemmingway interview thanks Murphy for his citizen activism.

A 14 year program of systematic recklessness in the deployment of geoengineering toxins is more consistent with intent to destroy rather than protect.

The Welsbach seeding patent calls for deployment into the *stratosphere* at altitudes substantially above 33,000 ft. **Instead**, we see too many deployments at lower altitudes in the *troposphere* where the result is to *heat the atmosphere* rather than to cool it.

The altitude of deployment is mostly irrelevant since the toxic compounds ultimately descend into the lower troposphere on their way down to contaminate vast planetary life systems.

Model of Earth's Atmosphere

The **stratosphere** is a layer of Earth's atmosphere. It starts about 10 km (6 miles) above the ground and goes up to 50 km (31 miles) high. The layer below it is called the **troposphere**. The layer above it is the **mesosphere**. As you go higher in the stratosphere, the air gets warmer. Earth's "sunscreen", the **ozone layer**, is within the **stratosphere**. The only clouds in this layer are the colorful **Polar Stratospheric Clouds**. (Original artwork by [Randy Russell](#)).

521 **Table 1.** Benefits and risks of stratospheric geoengineering. The right column is an update of
522 *Robock [2008a]*.

Benefits	Risks
1. Cool planet	1. Drought in Africa and Asia
2. Reduce or reverse sea ice melting	2. Continued ocean acidification from CO ₂
3. Reduce or reverse land ice sheet melting	3. Ozone depletion
4. Reduce or reverse sea level rise	4. No more blue skies
5. Increase plant productivity	5. Less solar power
6. Increase terrestrial CO ₂ sink	6. Environmental impact of implementation
	7. Rapid warming if stopped
	8. Cannot stop effects quickly
	9. Human error
	10. Unexpected consequences
	11. Commercial control
	12. Military use of technology
	13. Conflicts with current treaties
	14. Whose hand on the thermostat?
	15. Ruin terrestrial optical astronomy
	16. Moral hazard – the prospect of it working would reduce drive for mitigation
	17. Moral authority – do we have the right to do this?

Soil and water test results in addition to overwhelming physical evidence show KC-10 tankers and other aircraft caught in the *crime* of spraying toxins over populations and ecosystems on a global and catastrophic scale.

Aerosol and Geoengineering operations must be stopped immediately.

- In 2001, Rep., Dennis Kucinich used the term [“Chemtrails” in HR 2977](#) to describe what he referred to in the Bill as an **“exotic weapon”**. Passed as the **“Space Preservation Act of 2001”** the Senate version excluded the terms in the final version.
- No studies on the health effects of long-term Aluminum, Barium and Strontium on humans for the current and ongoing covert and global Geoengineering program that began in secret in the mid 1990's.
- Having no valid hypothesis for AGW rules out the need to formulate policy for Geoengineering.
- Hypothesis for AGW fails to adhere to the rigors of the Scientific method. ([Alan Carlin](#))
- Jet engines generate massive volumes of CO2 in their deployment of 10 to 20 million tons of aluminum/Barium and Strontium toxins. No data has been published to demonstrate cost/benefit of this massive, carbon-intensive operation in the jet fuel budget, alone.
- Survey of members of Congress in the documentary “What In The World Are They Spraying”, demonstrates that most elected officials are **probably** unaware of the existence of *Chemtrails* and other classified geoengineering programs currently underway.
- There is little doubt that Chemtrails are far more than a Geoengineering plan. Strong evidence exists that multiple government agencies have integrated their own classified programs inside the aerosol program. A published Air Force document has long promised: [Owning the weather in 2025](#) through “force multipliers” using geoengineering methods to weaponize the atmosphere against some future enemy.
- We feel this mission is a criminal act and clearly demonstrates an overall plan to convert major features of the atmosphere and biosphere to **CREATE CLIMATE CHANGE** as a weapon to public disadvantage.

Rosalind Peterson

Rosalind Peterson is the California President and Co-Founder of the Agriculture Defense Coalition (ADC), formed in 2006 to protect agricultural crop production from uncontrolled experimental weather modification programmes, atmospheric heating and testing programmes, and ocean and atmospheric experimental geoengineering programmes.

Ms. Peterson became a certified U.S.D.A. FSA Agriculture Crop Loss Adjustor in 1995, working in more than ten counties throughout California. Between 1989 and 1993, she worked as an Agricultural Technologist for Mendocino County.

Ms Peterson has won several awards and recognition for her extensive efforts to protect drinking water supplies from toxic chemical contamination in Martinez, California. She also writes articles for NewsWithView.com on many subjects including the protection of the environment from ongoing, unregulated experimental atmospheric and weather modification programmes.
